

One of Denver's youngest, wealthiest, most educated, and most transient zip codes — a revolving door of 25–39 year-old professionals arriving without a local doctor and leaving within 3–5 years.

STRATEGIC IMPLICATIONS

IT'S THE NEIGHBORHOOD, NOT AN EMPLOYER

1,633 businesses / 15,860 employees in-zip, but residents work elsewhere (avg 26-min commute). LoHi's walkability, dining scene, and lifestyle brand are the draw — not a single company.

THE AUDIENCE REFRESHES ANNUALLY

~10,100 move in, ~9,550 move out each year. Marketing is never "done." Apartment welcome packets, leasing office relationships, and recurring activations compound; one-shot campaigns don't.

16 APARTMENT BUILDINGS = YOUR PIPELINE

~2,000 units within ½ mile. 5 managed by Cornerstone (1 relationship = 5 buildings). Skyline (533 units), 2785 Speer (332), Infinity (273), Alcott (248) are highest-density targets.
